

Can-Do Kids guide

Can-Do Kids turn trash to cash!

Earn money by recycling aluminum cans - it's easy, fun and you help the environment. Plus, each month you are entered into a drawing for cool prizes!

How to participate:

Decide on your sources for aluminum cans:

- Start with collecting cans at home; other sources are your neighbors, friends, family or your parent's work place.

Sorting is important!

- Aluminum cans almost always are **beverage cans**: a magnet does not stick to aluminum like it does on a steel can.
- Only aluminum cans are accepted – check your collection before bringing them to the Anchorage Recycling Center to ensure all your pounds are eligible so you can enter the drawing for a prize.

Choose a place at home to store aluminum cans:

- Get your parent's permission to use a closet, the garage or any convenient, dry place in your home where you can collect cans. Store them in clean bags or boxes - whatever's easiest.

Spread the word that you recycle cans!

- Use the Can-Do Kids "business card" to let people know how often you'll to pick up aluminum cans.
- Be sure to coordinate pickups with your parent's permission.

Take cans to the Anchorage Recycling Center to redeem for cash and put your name in for a prize:

- Enlist you family's help in making regular trips to the Anchorage Recycling Center to see what else your family can recycle.
- You may want to go every week or just once every month - its up to you. Make sure it's a convenient time both for you and them!

For hours and days cans are accepted call the Anchorage Recycling Center: **562-2267**

*Can-Do Kids is a program of Alaskans for Litter Prevention & Recycling (ALPAR)
and coordinated by Westrock's Anchorage Recycling Center*
